Notes regarding the source and currency of data:

Data included in this School Accountability Report Card (SARC) template are consistent with State Board of Education guidelines, which are available at the California Department of Education Web site at <http://www.cde.ca.gov/ta/ac/sa/definitions05.asp>

Most data presented in this report were collected from the 2004-05 school year or from the two preceding years (2002-03 and 2003-04). Due to the certification timelines for graduation, dropout, and fiscal information, the data for these sections of the report were collected in 2003-04. Single-year column headings refer to the school year ending in that particular year. When no year is specified, data are from the most recent school year for which data are available.

More information about SARC requirements is available at the CDE Web site at <http://www.cde.ca.gov/ta/ac/sa/>, including a SARC Preparation Guide at <http://www.cde.ca.gov/ta/ac/sa/guide.asp> and Frequently Asked Questions at <http://www.cde.ca.gov/ta/ac/sa/questions.asp>.

Section I - General Information

Principal's Introduction

It is my pleasure to welcome you to Cleveland Elementary School. Located in the richly diverse neighborhood of the Excelsior, Cleveland is well known for its two large 3 story murals located on the side of our school building.

At Cleveland, you will find a group of creative, energetic and dedicated teachers who will demand hard work from your children while also providing a very caring classroom community.

School Description

Cleveland Elementary, located in the working class neighborhood of the Excelsior, offers all students an opportunity for a well-rounded education. All teachers are highly qualified instructors who work hard at providing a standards based curriculum with rigorous expectations, while also building our students' social and communication skills. Teachers make every effort to provide students with daily reading & writing homework applied from the day's curriculum. In addition, our staff collaborates with a variety of district content specialists (reading, math, science and ELD) to further enhance teacher planning and development.

School Vision

Cleveland Elementary School is a place where all contributing community members place the children as the first priority. As educators, we commit to collaborating with colleagues, students, and parents to continually strengthen ways in which our students can succeed from year to year. Each Cleveland community member has an opportunity to be both a learner and a teacher. We continually strive in building supportive structures so students can learn based on their needs.

Opportunities For Parental Involvement

Currently, parents assist the school with school activities (e.g. yearly carnival) and morning yard supervision of students. There is a draft plan to use our new parent liaison to schedule parents for regular classroom visits, and a plan for qualified parents to do 1-1 tutoring for their child (or other students) in reading. Parents also assist by serving on our SSC, and parents have just formed a new PTA group.

Section II - Demographic Information

Student Enrollment By Grade Level

Data reported are the number of students in each grade level as reported by the California Basic Educational Data System (CBEDS).

Student Enrollment By Racial and Ethnic Subgroups

Data reported are the number and percent of students in each racial and ethnic subgroup as reported by the California Basic Educational Data System (CBEDS).

Racial and Ethnic Subgroup	Number of Students	Percent of Students
African American	30	9.6
American Indian or Alaska Native	0	0.0
Asian	60	19.2
Filpino	40	12.8
Hispanic or Latino	162	51.8

Section III - School Safety and Climate for Learning

School Safety Plan

Information about the currency and contents of the school's comprehensive safety plan.

Date of Last Review/Update	10/12/2005
Date Last Reviewed with Staff	10/12/2005

Key Elements of School Safety Plan

Amongst our staff at Cleveland, we have identified roles & responsibilities within our Emergency Response Team. We assign designated staff to receive Crisis Response Training in order to share and guide staff with updated procedures or protocols related to any natural disasters or traumatic situations. In addition, our staff includes an on-site Learning Support Consultant, School Nurse and Psychologist who are here on average 3 days/week. Aside from staff support, we cooperate with our local Fire Dept. by having monthly emergency fire drills.

School Programs and Practices That Promote a Positive Learning Environment

- ° All teachers implement strategies of the school-wide community building program, Caring School Community. Such strategies include daily check-ins with students, cross-grade buddies and regular class meetings.
- ° Teachers participate in regular CSC after school workshops or planning meetings with CSC consultants.
- ° Regular volunteers from SFSU and nearby high schools come to play organized games or activities with our students. In addition, our Wellness Team Staff provide mentoring, play & social groups for varying grade level students.

Suspensions and Expulsions

Data reported are the number of suspensions and expulsions (i.e., the total number of incidents that resulted in a suspension or expulsion). The rate of suspensions and expulsions is the total number of incidents divided by the school's total enrollment as reported by CBEDS for the given year.

	School			District		
	2002/03	2003/04	2004/05	2002/03	2003/04	2004/05
Number of Suspensions	0	0	0	2,428	2,645	2710
Rate of Suspensions	0%	0%	0%	4.17%	4.58%	4.74%
Number of Expulsions	0	0	0	47	39	19
Rate of Expulsions	0%	0%	0%	.08%	.07%	.03%

Efforts to Reduce Suspensions

No program has been necessary. We simply seek out, and only retain, the best teachers we can find who know how to relate to all students, and how to not let discipline problems escalate in their classrooms.

We also guide our students to self manage their discipline using our outdoor Peace Paths. Through CSC strategies, we encourage our students to be reflective about the decisions or choices they make.

Section V - Academic Data

Standardized Testing and Reporting (STAR)

Through the California Standardized Testing and Reporting (STAR) program, students in grades 2 through 11 are tested annually in various subject areas. Currently, the STAR program includes California Standards Tests (CST) and a norm-referenced test (NRT). The CST tests English-language arts and mathematics in grades 2 through 11, science in grades 5, 9, 10, and 11, and history-social science in grades 8, 10, and 11. Prior to 2005, the NRT tested reading/language arts and mathematics in grades 2 through 11, spelling in grades 2 through 8, and science in grades 9 through 11. Beginning in 2005, the NRT tests reading/language arts, spelling, and mathematics in grades 3 and 7 only, and no longer tests science in any grade.

California Standards Test (CST)

The California Standards Tests (CST) show how well students are doing in relation to the state content standards. Student scores are reported as performance levels. The five performance levels are Advanced (exceeds state standards), Proficient (meets state standards), Basic (approaching state standards), Below Basic (below state standards), and Far Below Basic (well below state standards). Students scoring at the Proficient or Advanced level meet state standards in that content area. Students with significant cognitive disabilities who are unable to take the CST are tested using the California Alternate Performance Assessment (CAPA). Detailed information regarding CST and CAPA results for each grade and proficiency level can be found at the California Department of Education Web site at <http://star.cde.ca.gov> or by speaking with the school principal. *Note: To protect student privacy, scores are not shown when the number of students tested is 10 or less.*

CST - All Students

Data reported are the percent of students achieving at the Proficient or Advanced level (meeting or exceeding the state standards).

Subject	School			District			State

Norm-Referenced Test (NRT)

Reading and mathematics results from the California Achievement Test, Sixth Edition (CAT/6), the current norm-referenced test (NRT) adopted by the State Board of Education, are reported as the percent of tested students scoring at or above the 50th percentile (the national average). School results are compared to results at the district and state levels. Beginning in 2005, the NRT tests reading/language arts, spelling, and mathematics in grades 3 and 7 only and no longer tests science in any grade. Detailed information regarding results for each grade level can be found at the California Department of Education Web site at <http://star.cde.ca.gov/> or by speaking with the school principal. *Note: To protect student privacy, scores are not shown when the number of students tested is 10 or less.*

NRT - All Students

Data reported are the percent of students scoring at or above the 50th percentile.

California Fitness Test

Data reported are the percent of students meeting fitness standards (scoring in the healthy fitness zone on all six fitness standards) for the most recent testing period. The California Physical Fitness Test is administered to students in grades 5, 7, and 9 only. Detailed information regarding the California Physical Fitness Test may be found at the CDE Web site at <http://www.cde.ca.gov/ta/tg/pf/>. *Note: To protect student privacy, scores are not shown when the number of students tested is 10 or less.*

Academic Performance Index

The **Academic Performance Index (API)** is a score on a scale of 200 to 1000 that annually measures the academic performance and progress of individual schools in California. On an interim basis, the state has set 800 as the API score that schools should strive to meet.

Growth Targets: The annual growth target for a school is 5 percent of the distance between its API Base and 800. The growth target for a school at or above 800 is to remain at or above 800. Actual growth is the number of API points a school gained between its base and growth years. Schools that reach their annual targets are eligible for awards.

Subgroup APIs and Targets: In addition to a schoolwide API, schools also receive API scores for each numerically significant subgroup in the school (i.e., racial/ethnic subgroups and socioeconomically disadvantaged students). Growth targets, equal to 80 percent of the school's target, are also set for each of the subgroups. Each subgroup must also meet its target for the school to be eligible for awards.

Percent Tested: To be eligible for awards, elementary and middle schools must test at least 95 percent of their students in grades 2 through 8, and high schools must test at least 90 percent of their students in grades 9 through 11 on STAR assessments.

Statewide Rank: Schools receiving an API Base score are ranked in ten categories of equal size (deciles) from 1 (lowest) to 10 (highest), according to type of school (elementary, middle, or high school).

Similar Schools Rank: Schools also receive a ranking that compares that school to 100 other schools with similar demographic characteristics. Each set of 100 schools is ranked by API score from 1 (lowest) to 10 (highest) to indicate how well the school performed compared to schools most like it.

API criteria are subject to change as new legislation is enacted into law. Detailed information about the API and the Public Schools Accountability Act (PSAA) can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/> or by speaking with the school principal.

State Award and Intervention Programs

Although state intervention and awards programs are currently in the California Education Code, the programs were not funded for the period addressed by this report. Therefore, there are currently no data available to report.

Adequate Yearly Progress (AYP)

The federal No Child Left Behind Act (NCLB) requires that all schools and districts meet Adequate Yearly Progress (AYP) requirements. To comply with NCLB, California adopted AYP criteria that were approved by the U.S. Department of Education in June 2003. To make AYP, schools and districts are required each year to meet or exceed specific criteria in each of the following:

- Requirement 1: Participation rate on the state's standards-based assessments
- Requirement 2: Percent proficient on the state's standards-based assessments
- Requirement 3: API as an additional indicator
- Requirement 4: Graduation rate (for secondary schools)

Requirements 1 and 2 apply at the school, district, and subgroup levels. Requirements 3 and 4 apply only at the school and district levels, unless exception or "safe harbor" criteria are used. Detailed information about AYP can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/> or by speaking with the school principal.

AYP All Criteria - Schoolwide

Data reported indicate whether all AYP criteria were met for all students in a school or a district, or that exception (safe harbor) criteria were met, or that an appeal of the school's or district's AYP status was approved.

AYP Participation Rates and Proficiency Levels - Schoolwide and Subgroups

Data reported indicate whether AYP criteria for both the minimum participation rates and the percent proficient or above were met in a school or a district. *Note: "N/A" means that the student group is not numerically significant.*

Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make Adequate Yearly Progress (AYP) for two consecutive years. After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Information about PI, including a list of all PI schools and districts, can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/> or by contacting the district office or speaking with the school principal.

Section VIII - Teacher and Staff Information

Core Academic Courses Taught by NCLB Compliant Teachers

For a school, the data reported are the percent of a school's classes in core academic subjects taught by No Child Left Behind (NCLB) compliant teachers. For a district, the data reported are the percent of all classes in core academic subjects taught by NCLB compliant teachers in all schools in the district, in high-poverty schools in the district, and in low-poverty schools in the district. More information on teacher qualifications required under NCLB can be found at the CDE Web site at <http://www.cde.ca.gov/nclb/sr/tq/>.

	Percent of Classes In Core Academic Subjects Taught By NCLB Compliant Teachers
This School	6.7
All Schools in District	28.5
High-Poverty Schools in District	16.1
Low-Poverty Schools in District	14.4

Teacher Credentials

Data reported are the number of teachers (full-time and part-time) as reported by CBEDS. Each teacher is counted as "1." If a teacher works at two schools, he/she is counted at one school only. Data for teachers with a full credential and teaching outside his/her subject area are provided by the LEA.

	2003	2004	2005
Total Teachers	19	19	18
Teachers with Full Credential	18	17	18
Teachers Teaching Outside Subject Area (Full credential teaching outside subject area)	1	2	0
Teachers in Alternative Routes to Certification (District and university internships)	0	0	0
Pre-Internship	0	0	0
Teachers with Emergency Permits (Not qualified for credential/internship but meets minimum reqs)	1	2	0
Teachers with Waivers (No credential and doesn't qualify for Emergency Permit)	0	0	0

Teacher Misassignments

Data reported are the number of placements of a certificated employee in a teaching or services position, including positions that involve teaching English learners, for which the employee does not hold a legally recognized certificate or credential, or the placement of a certificated employee in a teaching or services position that the employee is not otherwise authorized by statute to hold. *Total Teacher Misassignments* includes the number of *Misassignments of Teachers of English Learners*. For the 2005-06 school year, the most currently available data are reported.

	2004	2005	2006
Misassignments of Teachers of English Learners	0	0	0
Total Teacher Misassignments	2	0	0

Vacant Teacher Positions

Data reported are the number of positions to which a single designated certificated employee has not been assigned at the beginning of the year for an entire year or, if the position is for a one-semester course, a position to which a single designated certificated employee has not been assigned at the beginning of a semester for an entire semester. For the 2005-06 school year, the most currently available data are reported.

	2004	2005	2006
Vacant Teacher Positions	0	0	0

Teacher Education Level

Data reported are the percent of teachers by education level, as reported by CBEDS.

	School	District
Doctorate	0.0	1.3
Master's Degree plus 30 or more semester hours	0.0	0.6
Master's Degree	11.1	23.1
Bachelor's Degree plus 30 or more semester hours	77.8	62.4
Bachelor's Degree	11.1	12.5
Less than Bachelor's Degree	0.0	0.2

Teacher Evaluations

Information about the procedures and criteria for teacher evaluations.

San Francisco Unified School District's teacher evaluation system is currently under revision. The District has conducted a pilot in 30 schools of a new evaluation system, based upon California Standards for the Teaching Profession. This pilot includes teacher self-assessment, professional growth plans and objectives, and guided reflection. There are protocols for pre-observation and post-observation conferences. Administrators are trained in evidence-based observation, focusing on specific areas of teacher practice, as well as in reflective questioning and coaching strategies. All of this is an effort to make teacher evaluation a professional growth-oriented process in the SFUSD. For teachers who are not performing at a satisfactory level, the District has a Peer Assistance & Review (PAR) program whereby those teachers receive up to a year of intensive coaching support to significantly improve practice and remain employed in the SFUSD.

Substitute Teachers

Information about the availability of qualified substitute teachers and the impact of any difficulties in this area on the instructional program at the school.

The school utilizes a known, reliable team of substitutes when they are needed. AS a STAR school, we are provided an on-site Site Support Substitute who's generally available for any emergency case substitution.

They are critical in supporting teachers by providing them release time for grade-level meetings, school planning and conference attendance.

Counselors and Other Support Staff

Our school site funds a Community Relations Specialist Elementary Advisor. All our staff support students by training them to utilize the steps of the "Peace Path", a visual tool that helps resolve conflicts.

Counselors and other Support Staff (con't)

Data reported are in units of full-time equivalents (FTE). One FTE is defined as a staff person who is working 100 percent (i.e., full time). Two staff persons who each work 50 percent of full time also equal one FTE.

Data reported are in units of full-time equivalents (FTE). One FTE is defined as a staff person who is working 100 percent (i.e., full time). Two staff persons who each work 50 percent of full time also equal one FTE. The ratio of students per academic counselor is defined as enrollment as reported by CBEDS divided by the full-time-equivalent academic counselors.

Section IX - Curriculum and Instruction

School Instruction and Leadership

Curriculum improvement programs and opportunities for improvement.

All teachers at Cleveland are given the opportunity to visit and observe other teachers on-site or at schools around San Francisco. Teachers also observe Best Practice videos of district teachers performing model lessons. All teachers participate in district, and out of district, professional development that is paid for by the local school site.

School and district efforts to align the instructional program with the state frameworks and content standards.

Teachers at Cleveland maintain weekly grade level meetings. Either the Instructional Reform Facilitator and Principal facilitate every other week at these grade level meetings. This work is focused on developing classroom curriculum that is based upon state Language Arts and Math standards. Teachers focus on regular analysis of student work, especially in the area of writing. This is to further enhance differentiation of instruction.

School leadership team at the school site, its role in ensuring the quality of the instructional program and support of teachers in improving instruction.

The school leadership team at Cleveland works closely with the school principal to assist in the planning of professional development, and to brainstorm ways to improve our student achievement. This work is often focused on ways of improving the instructional delivery of different aspects of our standards-based core curriculum.

How the school staff monitors the progress of underperforming students/student groups.

Student progress is monitored through regular grade level meetings, SST meetings, CST (Coordinated Services Team) meetings, IEPs. In addition to principal walkthroughs, the IRF (Instructional Reform Facilitator) monitors the students' progress through the OARS results and analysis from theme to theme in Language Arts, Math and Science.

Supports and interventions that are available to assist special needs students.

We provide small group or one-on-one reading support with the help of our RSP teacher, our paraprofessionals, our two Literacy teachers, our Instructional Reform Facilitator, as well as support from our mental health consultant and nurse.

Procedures for assessment of the progress of subgroups such as English Learners, Title I students, and numerically significant API subgroups.

With the assistance of two Literacy Specialists (K-2/3-5), each subgroup is assessed on a quarterly basis for progress in Reading and Math. This information is then used to create ongoing action plans. Staff utilize theme assessments from the newly adopted ELD curriculum and regularly analyze the results. As stated before, through regular grade level, SST or CST meetings, and walkthroughs, students' progress can be monitored.

Efforts to ensure equal access to the core curriculum for all students, including students with lower skills, English Learners, and the placement of individuals with exceptional needs in the least restrictive environment.

All students are given access to the same core curriculum materials and support materials.

Summary of overall achievement by subgroups.

From our most recent testing period in 2005, our overall English Language Arts & Math scores increased in all grade levels and all subgroups. The increase was evident in scoring areas "basic/above" and proficient/advanced. The results showed that our 3rd grade level had the smallest increase in both ELA &

Math. Although the percentage of students in our targeted subgroups (AS, L, ELL) increased, the results showed they were still below 25% at proficient/advanced.

Professional Development

Professional development is a part of every school site plan and a major component of instructional support departments. The district’s professional development program provides opportunities for teachers to implement the district’s core curriculum for all students, update subject area expertise, use data to plan instructional improvement strategies, and acquire new instructional strategies. Leadership development across content areas is facilitated centrally, and for educators and parents each school has three full days for professional development during the academic year.

For 2004/05 there are three weeks of centrally coordinated Professional Development Institutes. These week-long afterschool/Saturday institutes offer professional development in standards, best practices, assessment and diversity. A week-long institute in August offered professional development to all new teachers. Additional opportunities on special topics designed to ensure standards based instruction are offered by various district departments. All teachers are expected to maintain an individual professional growth plan that is approved by their professional advisor and is aligned with identified professional and school areas of need.

All of Cleveland’s staff engage in both on-site and district-wide professional development. Teachers take the opportunities to receive additional PD to become on-site teacher trainers for CSC, ELD and Vocabulary Development. The principal and IRF collaborate with Leadership Team members to provide PD specifically designed to both student and teacher needs. District content specialists also assist our staff in facilitating a variety of PD opportunities.

Quality and Currency of Textbooks and Instructional Materials

Information about the standards-aligned (kindergarten through grade 12) and state-adopted (kindergarten and grades 1 through 8) or locally adopted (grades 9 through 12) textbooks and other instructional materials used in the school that are consistent with the content and cycles of the curriculum frameworks adopted by the State Board of Education in the core curriculum areas of reading/language arts, mathematics, science, and history-social science. For kindergarten and grades 1 through 8, the information also includes a description of any supplemental curriculum adopted by the local governing board. The information includes an explanation for the use of any non-adopted textbooks or instructional materials.

Total Number of Minimum Days

In all San Francisco Unified District schools in grades K through 8:

- 10 minimum days make time for parent/teacher conferences during Fall and Spring Parent Conference Weeks.
- 3 minimum days per year make time for teachers to take part in professional development during Professional Development Institutes.

High schools do not have minimum days because they do not have regularly scheduled parent/teacher conferences. Conferences are arranged by request of the parent/guardian or the school.

Any additional minimum days at this school and reasons:
