### Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

### API Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools". A similar school rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

### ***Professional Development***

This section provides information about the program for training the school's teachers and other professional staff.

Professional development is a part of every site plan and a major component of instructional support to departments. The district's professional development program provides opportunities for teachers to implement the district's core curriculum for all students, update subject area expertise, use data to plan instructional improvement strategies and acquire new instructional strategies. Leadership development across content areas is facilitated centrally, and for educators and parents each school continues to provide three full days of professional development during the academic year.
